We hope to see our President Julia, back in circulation at the January meeting. November and December are tough months to be laid up with a broken ankle, cast, etc. Christmas shopping from a wheel chair takes a great deal of planning before leaving home.

Our OGS President calls to our attention:

"The Ohio Department of Health has transferred all death records over fifty years old to the Ohio Historical Society. Death records prior to December 20, 1908, can be obtained from the Probate Court in the county where the death occurred. (Death records have been kept since 1867.) From January, 1937, to present, write the State Office of Vital Statistics. For those records between December 20, 1908, through December, 1936, the Ohio Historical Society is busy microfilming the State Health Department's indexes and they will not be available until the end of January, 1989. No fees have yet been established by the Ohio Historical Society for copies "

HOW I SHOW 'HE'S PROBABLY ___" ON A PEDIGREE

Susan Holmes

I have been working on a method of indicating doubtful or possible relationships for which there is insufficient firm evidence.

I am tracing the CRUDGINGTON families alive at any one time and most of these were to be found in a small area in Shropshire and Worcestershire. Then in the 1770's one family went to the East End of London where they proliferated. At the present time I have records of about two thousand Crudgingtons up to 1900.

I have amassed a large amount of information from which I have tried to reconstitute families. Some are clear-cut leaving few loose ends, but other groups are much harder to sort out. In the early stages of gathering data I hoped that further information from other parishes in the area would throw light on the problem, but after examining most of the registers for the area I must now assume that little more may be found and that I must try to reconstruct the families as best I can.

I have found that this task is simplified if I assign a code to each of these doubtful relationships, so that:

- 1) I can easily recall the status of the information about a specific person.
- 2) I can show this status on charts without recourse to copious notes or a large number of dotted lines.
- 3) If further information comes to light, I can readily spot the weak links in the chain of reasoning.

The areas of doubt appear to fall into several categories which I have identified as follows:

- a) Records missing, otherwise straight forward.
- b) More than one person of a given name eligible.

eg: Thomas and Elizabeth have a son, Thomas, in 1676
Elizabeth dies 1685
Thomas marries Anne 1686
Thomas marries Elizabeth 1690, they have a son,
Thomas, 1694
Elizabeth dies 1705
Thomas marries Jane 1708

Which Thomas married Jane - father or son? Did Thomas marry four times or did his son Thomas marry 14 years after his baptism?

- c) A person baptised in one parish but living elsewhere at marriage presents a problem if there is more than one possible candidate.

- d) A person mentioned in a Will as a relative, or by name, but nowhere else. eg: "my brother John" turned out to be a half-brother by a different father.
- e) A person mentioned in a census but nowhere else.
- f) A single event occurring in a distant parish - one must weigh up the probability of an unknown family living in a distant parish appearing only once against the chance that it corresponds to a known family elsewhere.
- g) A combination of names that only appear once and is probably a mistake for a known combination.
- h) A person known by a name other than his or her baptismal name. eg:
Is Isabel, no birth found, the same person as Elizabeth, no marriage or death found, who has the same uncle?

I have also found it useful to have a code for secondary evidence - children's Christian names, wife's maiden name, witnesses to wills, marriages, etc.

eg: William of unknown family has a daughter named Eliza, her husband has the same surname as Elizabeth, the mother of William, who was born 10 miles away, 40 years prior to Eliza's birth - this might be a coincidence.

Sarah married in 1740 could be the daughter of either Rebecca or Mary, but if she calls her own daughter Rebecca this could be of significance.

WHO CAN CLAIM ME?

Shepherd Clark

It is really strange how difficult it is to locate citizenship action in court house records. Maybe the first Clerks didn't have instructions for the recording and so they were tucked in - here and there. It takes a lot of time and reading of much faded ink to locate these records. Someone had checked all our cemetery readings and not found these names - then checked indexes of past UNION ECHOES. We were able to locate the exact rows and positions in a Madison County, Pike Township Cemetery and the tombstones are being replaced. We were proud to be able to help

SAFEGUARD YOUR PAPERS Use "GLAD BAGS" to store genealogical papers. They are made of MYLAR which is archivally safe and much less expensive than archival supplies. St. Louis Genealogical Society via THE FRANKLINTONIAN of May 1989 page 82.

Archival quality envelopes that are made to fit in a 3-ring notebook are very easy to use and will protect your precious pictures and papers from being handled. Papers inside these envelopes will xerox very clearly without the original paper being disturbed. These may be purchased from Howard's Office Supply. Several people can go together and buy these by the thousand for a discount if you ask the clerk for a "price." Ask for CLINE #62015 "TOPPER". (also from THE FRANKLINTONIAN of May 1989 page 82)

This seems to be a good spot to add a plea for Xerox copies of Family
Bible Records. Copies will be returned to sender. Need publishing date of
Bible, original owner and present owner. If the writing is real hard to
read - do attach a sheet with pencil or pen info. Also if not in English
- a translation would be a great help. This seems to be the only known
sure way of preserving this valuable information. Come on gang - get your
spy glasses out - refresh your memories and see if you can contribute a
Bible record or two or three. Ye Ed

Recently - trying to catch up on summer correspondence - we read a great many requests for research. Once again, we were impressed with how many questions one can get on just one side of a sheet of paper. Ready to check materials to see if we had anything on the surname requested when we read the next line. It was requesting birth date & place, marriage date, church membership, will, - all of a different surname. At that point we gave up. DO DO DO DO DO DO DO LIMIT YOUR REQUESTS TO ONE OR TWO ITEMS. By that we don't mean one or two FAMILY HISTORIES. We are not professionals - we try to be careful but I am sure we spin our wheels many a time and come up with nothing. We research for you because we like helping others and we like you.

Wish we could find someone who would know just who is responsible for the care of cemeteries and how to convince them that daily, farm animals, farm and lawn machinery are destroying tombstones at a terrible rate. Most of the old stones were hand carved - 'tis sad.

County lines have never kept its inhabitants within borders. Especially in the early days when your only neighbor in ten miles was in another county. What makes Union County special is that there was a bit more land - sort of in the center - that didn't belong to any county. It wasn't enough to make a county, so a bit of each of the surrounding counties was added - and we called the result UNION COUNTY. Another result is the need to look in each of the adjacent counties if we don't find our people in Union County.

We thought you should know that Union County Genealogical Society does have an on-going project. This project is the gathering of research helps for the three libraries in Union County: PLAIN CITY, MARYSVILLE, RICHWOOD. We operate our chapter strickly on the dues of the membership but

any profit made from the sale of our efforts is plowed back in to publish more records and to buy research materials for the libraries. Sometimes a library already had the volume so we had to purchase only one or two copies. The books listed here are in all three libraries - additions to this list will be included as the materials arrive.

This business of a county made up of pieces of other counties and a bit of unattached lands get more and more complicated. Seems as though "in the beginning" there was Washington County (most of Ohio) - that would be about 1788. Then about 1790 there was Hmilton County and unattached lands - of which we were a part (of the unattached). Then in 1796 & 1797 we were looked after by Hamilton and Wayne Counties. In 1798 it was Wayne & Ross Counties, then 1803 Franklin County. Kind of got tossed around didn't we? So in 1805 Franklin & Champaign Counties were acting as our governing parents and in 1808 they had the help of Delaware County.. By 1810 Madison County was assisting but by 1818 Champaign County dropped the chore and Logan County picked it up. T H E N 1820 came along and we were UNION COUNTY. So pre-1820 you may have to hunt the above labyrinth for your kin.
